

Managed Services

The rapid growth of data, processing and hosting complexities, and the time and cost of review can be overwhelming. But it doesn't have to be. Scale your bandwidth. Scale your productivity. Scale your coverage. Innovation Discovery's managed services offering works as an extension of your team, giving you the bandwidth to focus on the legal matters at hand.

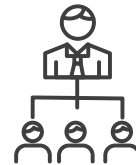

OUR MANAGED SERVICES OFFERING PROVIDES:

UTILIZATION OF EXISTING TECHNOLOGY

By utilizing your existing hardware and software, your data stays securely behind your fire wall.

COVERAGE

A seamless and reliable extension of your team to cover peaks and valleys, off-hours, and other bandwidth constraints.

COST SAVINGS

A variety of pricing models to satisfy your needs and goals.

RELIABILITY

Consistent, reliable, and effective work flows.

HOW DOES ID INTEGRATE INTO OUR CULTURE?

We have served a variety of clients and industries, so you won't get mindless drones, but a team that understands your methodologies, verbiage, and nuances, and cares as much about your success as you do.

WHAT IS THE MOST COMMON BENEFIT?

Increased bandwidth and the ability to scale productivity. We are the in-house solution to your information management, offering on-site services throughout the entire information life cycle.

HOW CAN USING MANAGED SERVICES AFFECT OUR BOTTOM LINE?

Creating efficiencies within your organization while scaling your processes can reduce both the hard and soft costs associated with litigation and the day-to-day management of your information.

DO WE HAVE TO EMPLOY NEW TECHNOLOGY OR METHODOLOGIES?

Using ID for managed services allows you to keep your data in your infrastructure with your systems and security, but with our expert knowledge and best practices.
