

# Second Requests

Second Requests are monumental endeavors that significantly impact the future of the organizations involved. Time is of the essence, and ID has you covered with our full suite of litigation technology services providing transparency, rolling data review, and monitoring and management of your matter.

## ID BRINGS THE FOLLOWING TO EVERY SECOND REQUEST:

### TIGHTLY-INTEGRATED WORK FLOWS

Our forensics team can provide our reviewers with knowledge on the type of data they will be reviewing before they receive it.

### SCALE

Our infrastructure is designed to scale and easily accommodate large volumes of data and expert teams of human resources.

### HOLISTIC APPROACH

Our end-to-end services provide solutions from forensics through analytics and managed review to final production.

### TECHNOLOGY

In-depth experience with industry-leading technologies, ensuring the data reviewed and produced is secure and relevant.

### TIME-SAVINGS

Time is the enemy with a Second Request, and you cannot waste time passing the baton.

### QUALITY ASSURANCE

We have the experience and work flows in place to ensure that you receive the highest-quality work product.

## HOW CAN ID SAVE US TIME?

We “keep our reviewers” fed, pushing the data along as quickly as possible. From the beginning, our forensics and processing teams assess the data so that the review team tackles the most relevant, top-priority data first.

## WHY IS ID THE BEST CHOICE FOR OUR SECOND REQUEST?

We have extensive experience with government agencies, such as the FTC, DOJ, and SEC, that we incorporate in every Second Request.
