

# We are as invested in your data as you are.

Financial institutions have a vast amount of data, often sensitive and non-traditional in nature, which creates discovery challenges specific to your industry. From initial data creation to the time it is deleted, Innovative Discovery consults with clients to establish workflows and procedures to increase compliance, mitigate risk, and improve the organizational structure of your data. You are left with confidence and a partnership you can bank on.

## ID SURPASSES THE COMPETITION BY PROVIDING:

### FEDRAMP

This highly-sought-after authorization allows us to offer a secure, cloud-based environment for government data and we proudly utilize those best practices for our business environments.

### INFORMATION GOVERNANCE AND CYBER SECURITY

ID works with clients to build data retention policies, helping to reduce your data footprint and your risk of exposure. We can help identify potential vulnerabilities and implements on-going monitoring procedures.

### COLLECTIONS

Understanding that most banking data is recorded on a phone line, ID brings our expertise in non-traditional data types to every case. ID also offers a variety of collection methods, including remote collection, to help you gather evidence.

### ANALYTICS

We understand the need for options and tailor-made workflows to fit YOUR organization. We take a consultative approach to every project to determine the most efficient review workflow, leveraging analytics, to help you identify critical information faster.

### LEGAL HOLD

Relativity Legal Hold is a defensible, efficient, and comprehensive toll that enables organizations to effectively manage all data and correspondence in one centralized location.

### CONCIERGE-LEVEL SERVICE

We pride ourselves on providing prompt, customized service every step of the way. Our team invests in your organization and your data, so you receive boutique-style attention from top-notch experts.
