

Governing your data with world-class care & security

Government entities have some of the most sensitive and valuable data in the world. Top-notch security and data management protocols aren't luxuries - they are necessities. We have invested the time and effort to become a FedRAMP authorized provider because we understand that securing your data is of the utmost importance. ID provides U.S. government agencies with vetted, reliable, and scalable technology services, and the experience to help you effectively manage your data.

ID SERVES GOVERNMENT AGENCIES BY PROVIDING:

FEDRAMP

This highly-sought-after authorization allows us to offer a secure, cloud-based environment for government data. This standardized framework demonstrates credibility and capacity, provides transparency, and reduces time and costs.

END-TO-END SERVICES

Our end-to-end services provide solutions from forensics through analytics and managed review to final production. Having a partner through every step of the information life cycle creates seamless workflows and consistent results.

TOP-NOTCH PROJECT MANAGEMENT

The ID PM team, available to you 24/7, is stacked with Relativity Masters & Experts, Relativity Analytics Specialists, Relativity Certified Administrators, Relativity Infrastructure Specialists, Brainspace Certified Analysts, Nuix eDiscovery Specialists, and iCONNECT Administrators.

VARIOUS COLLECTION OPTIONS

We understand the need for options and tailor-made workflows to fit YOUR organization, technology, and comfort level with the process. ID offers our clients a variety of collection methods, including remote collection, to help you gather the evidence you need while ensuring defensibility.

SECURE HOSTING

ID offers both Relativity and iCONNECT as secure, hosting platforms within our FedRAMP authorized cloud environment. We believe in finding the right tool for you and executing it flawlessly.

CUSTOMIZED WORKFLOWS

ID offers a full suite of analytic and algorithmic coding tools by providing Brainspace, Relativity Analytics, and iCONNECT Analytics inhouse – as well as expert consulting and application to get the most from them.

Governing your data with world class care & security
