

Data Breach Review

When you've done everything possible to protect your organization, and hackers still manage to attack you where it hurts, it's imperative that you not only rush to stop the bleeding but also tend to the wound. You have no time to waste. Innovative Discovery works with you immediately to review the breached data and identify sensitive information so that you can assess the severity of the breach as quickly as possible. Our experience and technology help expedite the response time, saving you time and money, allowing you to get back on your feet.

DATA BREACH REVIEW WITH ID PROVIDES:

COMPLIANCE

We are well-versed on compliance regulations and will ensure that you meet the necessary requirements in responding to your breach.

ANALYTICS

Our experts will use best-of-breed tools to identify potentially breached information as quickly as possible.

IDENTIFICATION

Locating your sensitive and potentially compromised data will help assess the damage prior to reviewing the data.

MANAGED DOCUMENT REVIEW

Complete managed document review, searching your breached information for personal and protected data.

DEDICATED EXPERTS

Your custom-build project team comprised of hand-selected reviewers, analytics experts, and a committed project manager will be focused on the urgency of the task at hand, and getting it done right.
